

n e w s l e t t e r

We are happy to share with you the call for participation in the STEP H2020 Project Dialogue & Contest on Air Quality!

We all care about the air quality in the spaces that we live in. Even small choices that we make everyday can influence air quality. Think about the transportation that we use, the way we deal with waste management, our energy consumption. It is in our power to help reduce air pollution!

In that frame STEP invites young people to participate and express themselves in the Air Quality dialogue! Prizes await those who will STEP up and share their opinion.

Participants are asked to express their opinion around four main questions:

How do they think air pollution affects us?

How would they/do they help reducing air pollution in their community?

Which small steps we could take towards cleaner air?

Are they interested to help their city in air quality monitoring?

To that extent we would like to invite you to participate and promote the contest to your contacts, friends and networks.

The results of this “public – dialogue” will be formatted to a report and communicated to a number of International organisations active in the thematic area of Climate Change.

We would like to thank you in advance for your participation and assistance to the matter.

Best Regards

The Step Project team

Horizon 2020
European Union funding
for Research & Innovation

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 649493.

STEP Contest !

STEP Project awards Youth e-participation and involvement!

Unique prizes await those who will STEP up and share their opinion!

We all care about the air quality in the spaces that we live in. Even small choices that we make everyday can influence air quality. Think about the transportation that we use, the way we deal with waste management, our energy consumption. It is also in our power to help reduce air pollution.

Will You STEP Up ?

Share your opinion on the topic of #AirQuality!

To participate in the contest - you just have to follow 3 simple steps below:

1. Enter Step.green and register in the platform
2. Select the "Step EU Pilot"
3. Select the "Air Quality" dialogue, join the conversation and share your opinion with us!

The winners of the competition will receive prizes from MLS Multimedia SA, an SME that specializes in developing and delivering interactive media technology products.

The contest will be open until December 1st, 2017 (23:59 CET).

Rules of the contest can be found here: <http://step4youth.eu/win/>
